

How to Measure Custom Skylight Covers - Round Dome

Measurement Instruction

- ✓ Give exact measurement from edge to edge.
- ✓ We add 2.5 to 5 cm leeway on the given width/depth for easy pull-in and pull-out.
- ✓ The height dimensions will remain same as provided by you.
- ✓ All measurements will be done in cm.

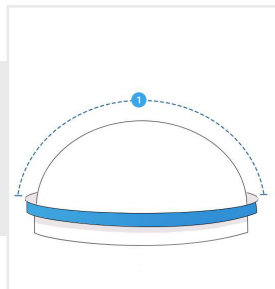

Measurement (cm)

- | | | | |
|---|----------------------|---------------------------------|----------------------|
| 1. Distance from Top Edge Metal Frame to other side of the dome | <input type="text"/> | 2. Circumference of Metal Frame | <input type="text"/> |
| 3. Height of the Metal Frame (Not to the roof) | <input type="text"/> | | |

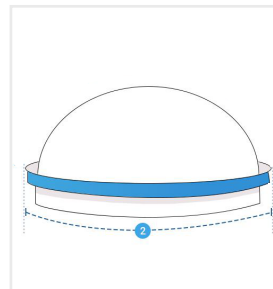

1. Distance from Top Edge Metal Frame to other side of the dome:

Distance from Top Edge Metal Frame to other side of the dome of Skylight

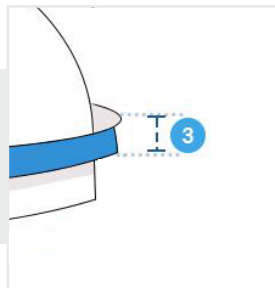

2. Circumference of Metal Frame

Circumference of Metal Frame of Skylight

3. Height of the Metal Frame:

Depth of the Metal Frame (Not to the roof) of Skylight

We encourage you to upload the image of the article you need the cover for - this helps our team ensure covers are designed keeping your requirements in mind.
